

FLUTE FINGERS!

To Increase Speed, work for:

Fingers close to keys --B flat scale without fingers leaving the keys

Focus on Left Hand---Bend wrist to move palm towards end of flute so fingers round over keys—great for closing open holes and for increasing speed!

Experiment-proof curly fingers are speedier!—drum fingers on any surface that you can hear the speed

--have fingers straight—listen to speed

--have fingers curled---listen to speed

Alt. Fingers—High E natural--Lift right pinky—lowers pitch

---High F--Add right ring finger—lowers pitch

---High F#--Use middle finger of right hand instead of ring finger-lowers pitch

---High A flat--Add middle and ring fingers 5 and 6 of RH—lowers pitch
